CHOOSE TO COMPETE ACADEMIC EXCELLENCE PROGRAM

Is there not a cause???

Every year, American students are losing ground on the academic forefront of society. As a result, they are losing their ability to compete with students from other nations. Some schools deliver superior performance while many others seem to struggle. Choose 2 Compete Academic Excellence Program is our contribution towards leveling the playing field by equipping our world class leaders to excel in academic excellence. These half day camps are designed to target basic to advanced skills in math, reading, science, foreign language and history.

WHAT: Choose 2 Compete Academic Excellence Program are half day educational camps that will provide instruction and hands on learning in five major areas. Your child will enjoy a week each of Science and Technology, Mathematics, Language Arts, History, and Foreign Language/World Affairs.

WHEN: June 15-19: A Reading Rainbow (LANGUAGE ARTS)
June 22-26: Sci-Kids (SCIENCE)
June 29-July 3: It's a Small World After All (FOREIGN LANGUAGE)
July 6- 10: Math Madness (MATHEMATICS)
July 14-19: How the West was Won (HISTORY)

The cost of this academic excellence program is included in the cost of weekly tuition, which is \$125.00 per week.

For registration information and more information about these and other theme weeks please visit us on the web at www.childofpromise.org or call our information hotline at 678-768-1844.
